

Tanuka Das

347-387-8999 | tanuka.das12@gmail.com | [LinkedIn](#) | [GitHub](#) | [Medium-TanukaDas](#)

Software Engineer with experience in Ruby, Ruby on Rails, JavaScript, and React.js. Fascination in software development began by adding computer science courses to my undergraduate studies and grew with developing and building different apps and websites. Seeing projects go from a concept to life motivates me. My previous team-oriented and problem-solving experiences prepared me ideally for the current tech workplace.

TECHNICAL PROJECTS

DoNation - [Github](#) - [Front-end](#) | [Github](#) - [Back-end](#) | [Demo](#)

Charity app, which allows users to research numerous charitable organizations to award donations

- + Created a full-stack application leveraging React, React-Router, Ruby on Rails, HTML and CSS
- + Stored encrypted user information, utilizing JSON Web Tokens & localStorage to create Signup, Login, and Logout features
- + Built credit-card feature to let users give a donation using their credit card details
- + Implemented back-end calls to Charity API to provide users with a list of the charity organizations
- + Constructed customer chatbot for online users which let users have a static chat experience

House of Shoes - [Github](#) | [Demo](#)

Shoe wish-list app, which holds shoes of different brands and category. Users have access to search and filter by brand and type; Users can create an account and add their favorite shoes in their own wish list

- + Developed a full CRUD application with Ruby on Rails, custom CSS and Bootstrap
- + Added a like button which allows the users to add favorite shoes to their wish-list
- + Implemented filters and search options to make the application more user-friendly

Instagram Lite - [Github](#)

A social media app, allows users to create an account, post images, like pictures and add comments on other users account.

- + Developed ruby backend
- + Created authentication for users
- + Implemented a make-like program using rake
- + Utilized different gems to bring graphics and progress bars into the terminal

TECHNICAL SKILLS

- + Ruby, Rails, JavaScript, React, PostgreSQL, Agile Methodology, Flatiron Immersive Program Graduate
